Before You Start, Register HazRAE And Install The Application License Code!

You must register your HazRAE to obtain an application license code, which you should install on your HazRAE. Do this as soon as possible. HazRAE will run up to 15 times without an application license code, but after that, it will not start.

1. Register

Go to **www.raesystems.com/hazrae** and fill out the form.

Note: The information you provide must exactly match the information as entered in "Owner Information" in your PC or iPAQ Pocket PC.

After filling out the online form, click the SUBMIT button. You will receive an email with your application license code within 24 hours.

2. Install Your Application License Code (iPAQ Pocket PC)

1. Install your Owner Information in the iPAQ. Using the iPAQ's stylus, tap each of the following on your iPAQ to access the Owner Information:

   Start ► Settings ► Owner Information

   Tap in your information and then tap the circled X in the upper right corner.

2. Tap Start ► HazRAE and then tap Register in the menu that appears.
3. Tap in the Application License Code.
4. Tap OK.

2. Install Your Application License Code (PC)

1. Install your Owner Information in your PC.

   Double-click the HazRAE icon on your desktop,

or

   Start ► Programs ► HazRAE

2. Type in the Application License Code.
3. Click OK.

HazRAE now has your Application License Code and is running.

For further information, refer to the HazRAE User's Guide.
