## Water Quality Monitoring System U-20XD series

### Multi-Probe Model: W-21SDI

■ Simultaneous monitoring of up to 8 water quality parameters

pH

Dissolved Oxygen

ORP

Salinity

Conductivity

TDS

Temperature

Seawater  
Specific  
Gravity

#### ■ SDI-12 Compatible

Horiba W-21SDI can now interface with SDI-12 compatible data collection platforms and integrate into third party monitoring systems

Horiba W-21SDI is a "ISCO Ready Sonde" which allows "Plug and Play" set up with the ISCO6712 sampler\*

\*ISCO6712 Sampler is a product of ISCO, Inc

#### Ideal package for applications like:

- TMDL monitoring
- Stormwater runoff
- Rivers, lakes and estuaries
- Non-point source pollution
- Combined sewer overflows
- Wastewater effluent
