Reliable Instruments.  
Meaningful Data.™

The En Core® Sampler is a disposable, volumetric sampling device, developed to assist field personnel in taking soil samples with *minimal handling and maximum accuracy*.

En Core Samplers collect, store, and transport soil samples, all with a single device. An airtight sealing cap prevents the loss of volatiles making them the most cost effective sampler for EPA Method 5035 compliance.

### Advantages of the En Core® Sampler

- Faster - less field time per sample
- Easy to use with minimal training
- No preservatives handling in the field
- No shipping restrictions
- Long shelf-life with no expiration
- Meets ASTM Standards D4547 and D6418
- Allowed in all states requiring Method 5035

### En Core® Tools

- EN525THA Standard T-Handle (5g/25g)
- EN525EXT Extrusion Tool (5g/25g)

# En Core Sampler®

The En Core® Sampler is made of high-tech inert composite polymer and is available in 5 gram and 25 gram versions.

### Features

- No chemicals involved in the field
- Eliminates the need for methanol preservation
- Eliminates preservation with sodium bisulfate
- Avoids many sources for lab discrepancies

### Specifications EN05G / EN25G

- 5 gram and 25 gram versions
- Airtight sealing cap
- For one-time-use only
- Meets EPA Method 5035

### En Core Sampler Prices

- Discounts available for quantity orders
- EN05G 5 gram En Core Sampler \$8.04 each
- EN25G 25 gram En Core Sampler \$8.50 each
- Best Price Guarantee!
